| Artikelname              | AIF-1 Antibody / IBA1, Goat, Polyclonal                                                                                          |
| Artikelnummer            | NSJ-R36179-100UG                                                                                                                 |
| Hersteller Artikelnummer | R36179-100UG                                                                                                                     |
| Alternativnummer         | NSJ-R36179-100UG                                                                                                                 |
| Hersteller               | NSJ Bioreagents                                                                                                                  |
| Wirt                     | Goat                                                                                                                             |
| Kategorie                | Antikörper                                                                                                                       |
| Applikation              | ELISA, IHC-P, WB                                                                                                                 |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                |
| Immunogen                | Amino acids TGPPAKKAISELP were used as the immunogen for this AIF-1 antibody.                                                    |
| Produktbeschreibung      | Additional name(s) for this target protein: Allograft inflammatory factor 1, AIF1, Ionized calcium-binding adapter molecule 1... |
| Klonalität               | Polyclonal                                                                                                                       |
| Reinheit                 | Antigen affinity                                                                                                                 |
| Formulierung             | 0.5 mg/ml in 1X TBS, pH7.3, with 0.5% BSA (US sourced) and 0.02% sodium azide                                                    |
| Antibody Type            | Primary Antibody                                                                                                                 |

|                        |                                                                                                                                        |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | Western blot: 1-3ug/ml,Immunohistochemistry (FFPE): 4-6ug/ml,ELISA (peptide) LOD: 1:32000                                              |
| Anwendungsbeschreibung | Optimal dilution of the AIF-1 antibody should be determined by the researcher.1. This AIF-1 antibody is specific for isoforms 1 and 3. |
