| Hersteller               | NSJ Bioreagents                                                                                                                                                                                                                                               |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant human BAFF protein was used as the immunogen for this BAFF antibody.                                                                                                                                                                              |
| Produktbeschreibung      | BAFF/BLyS/CD257 is a type II transmembrane protein, and a member of the tumor necrosis factor ligand superfamily. It is proteolytically cleaved to form a soluble protein. BAFF, like other TNF ligand family members, forms homo-trimers. The predicted m... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [C257/1638]                                                                                                                                                                                                                                                   |
| UniProt                  | <a href="#">Q9Y275</a>                                                                                                                                                                                                                                        |
| Puffer                   | 1X PBS, pH 7.4                                                                                                                                                                                                                                                |

|                        |                                                                            |
|------------------------|----------------------------------------------------------------------------|
| Reinheit               | Protein G affinity chromatography                                          |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced) and 0.05% sodium azide |
| Antibody Type          | Primary Antibody                                                           |
| Application Verdünnung | ELISA (order BSA/sodium azide-free format for coating)                     |
| Anwendungsbeschreibung | Titering of the BAFF antibody may be required for optimal performance.     |
