| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A recombinant partial protein sequence (within amino acids 1-182) from the human protein was used as the immunogen for the CD3 gamma antibody.                                                                                                                |
| Produktbeschreibung      | The T cell antigen receptor (TCR) recognizes foreign antigens and translates such recognition events into intracellular signals that elicit a change in the cell from a dormant to an activated state. Much of this signaling process can be attributed to... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [CD3G/8794]                                                                                                                                                                                                                                                   |
| UniProt                  | <a href="#">P09693</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Protein A/G affinity                                                                                                                                                                                                                                          |

|                        |                                                                                    |
|------------------------|------------------------------------------------------------------------------------|
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide            |
| Antibody Type          | Primary Antibody                                                                   |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml                                              |
| Anwendungsbeschreibung | Optimal dilution of the CD3 gamma antibody should be determined by the researcher. |
