| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P, WB                                                                                                                                                                                                                                                     |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Proteins precipitated from human breast cancer MCF-7 cells were used as the immunogen for the recombinant MVP antibody.                                                                                                                                       |
| Produktbeschreibung      | Recognizes a protein of 104kDa-110kDa, characterized as major vault protein (MVP). Vaults are large ribonucleoprotein particles (RNPs) present in all eukaryotic cells. They have a complex morphology, including several small molecules of RNA, but a si... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [r1032]                                                                                                                                                                                                                                                       |
| UniProt                  | <a href="#">Q14764</a>                                                                                                                                                                                                                                        |

|                        |                                                                                          |
|------------------------|------------------------------------------------------------------------------------------|
| Reinheit               | Protein A/G affinity                                                                     |
| Formulierung           | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                           |
| Antibody Type          | Primary Antibody                                                                         |
| Application Verdünnung | Western blot: 1-2ug/ml,Immunohistochemistry (FFPE): 1-2ug/ml for 30 minutes at RT        |
| Anwendungsbeschreibung | Optimal dilution of the recombinant MVP antibody should be determined by the researcher. |
