| Kategorie                | Antikörper                                                                                                                                                                                                                                                             |
| Applikation              | IHC-P                                                                                                                                                                                                                                                                  |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                                  |
| Immunogen                | Recombinant human full-length protein was used as the immunogen<br>for the recombinant CDH16 antibody.                                                                                                                                                                 |
| Produktbeschreibung      | This mAb recognizes a protein of 130kDa, identified as Ksp-cadherin.<br>Cadherins form a superfamily of related glycoproteins that mediate<br>calcium-dependent cell adhesion and transmit signals from the<br>extracellular matrix to the cytoplasm. Cadherins hav... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                             |
| Klon-Bezeichnung         | [rCDH16/7342]                                                                                                                                                                                                                                                          |
| UniProt                  | <a href="#">075309</a>                                                                                                                                                                                                                                                 |

|                        |                                                                                            |
|------------------------|--------------------------------------------------------------------------------------------|
| Reinheit               | Protein A affinity                                                                         |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                    |
| Antibody Type          | Primary Antibody                                                                           |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml for 30 minutes at RT                                 |
| Anwendungsbeschreibung | Optimal dilution of the recombinant CDH16 antibody should be determined by the researcher. |
