| Alternativnummer         | NSJ-V4826SAF-100UG                                                                                                                                                                                                                                            |
| Hersteller               | NSJ Bioreagents                                                                                                                                                                                                                                               |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P, WB                                                                                                                                                                                                                                                     |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant full-length human PCNA protein was used as the immunogen for the PCNA antibody.                                                                                                                                                                   |
| Produktbeschreibung      | Recognizes a non-histone protein of 36kDa, which is identified as proliferating cell nuclear antigen (PCNA). It is also known as cyclin or polymerase delta auxiliary protein. Elevated expression of PCNA/cyclin has been shown in the nucleus during lat... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [rPCNA/8859]                                                                                                                                                                                                                                                  |
| UniProt                  | <a href="#">P12004</a>                                                                                                                                                                                                                                        |

|                        |                                                                                |
|------------------------|--------------------------------------------------------------------------------|
| Reinheit               | Protein A/G affinity                                                           |
| Formulierung           | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                 |
| Antibody Type          | Primary Antibody                                                               |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml for 30 min at RT, Western blot: 2-4ug/ml |
| Anwendungsbeschreibung | Optimal dilution of the PCNA antibody should be determined by the researcher.  |
