| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, IHC-P                                                                                                                                                                                                                                                  |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A recombinant fragment of human CD40 protein (around aa 1-200) was used as the immunogen for the CD40 antibody.                                                                                                                                               |
| Produktbeschreibung      | CD40 is a receptor on antigen-presenting cells of the immune system and is essential for mediating a broad variety of immune and inflammatory responses including T cell-dependent immunoglobulin class switching, memory B cell development, and germinal... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [CD40/4940]                                                                                                                                                                                                                                                   |
| UniProt                  | <a href="#">P25942</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Protein A/G affinity                                                                                                                                                                                                                                          |

|                        |                                                                                                  |
|------------------------|--------------------------------------------------------------------------------------------------|
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                          |
| Antibody Type          | Primary Antibody                                                                                 |
| Application Verdünnung | ELISA (Order BSA-free format for coating),Immunohistochemistry (FFPE): 1-2ug/ml for 30 min at RT |
| Anwendungsbeschreibung | Optimal dilution of the CD40 antibody should be determined by the researcher.                    |
