| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Canine, Feline, Human                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant full-length human protein was used as the immunogen for the EpCAM antibody.                                                                                                                                                                       |
| Produktbeschreibung      | EGP40 is a 40-43kDa transmembrane epithelial glycoprotein, also identified as epithelial specific antigen (ESA), or epithelial cellular adhesion molecule (Ep-CAM). It is expressed on baso-lateral cell surface in most simple epithelia and a vast major... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [rEGP40/7334]                                                                                                                                                                                                                                                 |
| UniProt                  | <a href="#">P16422</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Protein A/G affinity                                                                                                                                                                                                                                          |

|                        |                                                                                |
|------------------------|--------------------------------------------------------------------------------|
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide        |
| Antibody Type          | Primary Antibody                                                               |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml for 30 min at RT                         |
| Anwendungsbeschreibung | Optimal dilution of the EpCAM antibody should be determined by the researcher. |
