| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A recombinant fragment of human protein was used as the immunogen for the Cytotoxic T-lymphocyte protein 4 antibody.                                                                                                                                          |
| Produktbeschreibung      | Cytotoxic T lymphocyte-associated antigen-4 (CTLA-4) is a member of the CD28 superfamily and is a negative regulator of T cell-mediated immune responses. CTLA-4 expression is induced on the surface of T cells after CD28 binding and activation, and is... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [CTLA4/6867R]                                                                                                                                                                                                                                                 |
| UniProt                  | <a href="#">P16410</a>                                                                                                                                                                                                                                        |

|                        |                                                                                                           |
|------------------------|-----------------------------------------------------------------------------------------------------------|
| Reinheit               | Protein A/G affinity                                                                                      |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                                   |
| Antibody Type          | Primary Antibody                                                                                          |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml for 30 min at RT                                                    |
| Anwendungsbeschreibung | Optimal dilution of the Cytotoxic T-lymphocyte protein 4 antibody should be determined by the researcher. |
