| Hersteller               | NSJ Bioreagents                                                                                                                                                                                                                                               |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A recombinant partial protein sequence (within amino acids 1-152) from the human protein was used as the immunogen for the IL15 antibody.                                                                                                                     |
| Produktbeschreibung      | Interleukin-15 (IL-15), also designated IL-T, is a cloned cytokine which shares several biological activities but no sequence homology with IL-2. Human, mouse and simian IL-15 cDNA clones have been isolated and characterized. All 3 species encode a 1... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [rIL15/8050]                                                                                                                                                                                                                                                  |
| UniProt                  | <a href="#">P40933</a>                                                                                                                                                                                                                                        |

|                        |                                                                               |
|------------------------|-------------------------------------------------------------------------------|
| Reinheit               | Protein A/G affinity                                                          |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide       |
| Antibody Type          | Primary Antibody                                                              |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml for 30 min at RT                        |
| Anwendungsbeschreibung | Optimal dilution of the IL15 antibody should be determined by the researcher. |
