Recombinant MME Antibody / CD10 / CALLA / Neprilysin, Clone: [rMME/9377], Mouse, Monoclonal NSJ-V5446-100UG

Artikelname	Recombinant MME Antibody / CD10 / CALLA / Neprilysin, Clone: [rMME/9377], Mouse, Monoclonal
Artikelnummer	NSJ-V5446-100UG
Hersteller Artikelnummer	V5446-100UG
Alternativnummer	NSJ-V5446-100UG
Hersteller	NSJ Bioreagents
Wirt	Mouse
Kategorie	Antikörper
Applikation	IHC-P
Spezies Reaktivität	Human
Immunogen	Recombinant human CD10/Neprilysin protein fragment (amino acids 500-750) was used as the immunogen for the recombinant MME antibody.
Produktbeschreibung	Recognizes a 100kDa glycoprotein, identified as CD10, also known as Membrane Metalloendopeptidase (MME), Common Acute Lymphocytic Leukemia Antigen (CALLA) and Neprilysin. It is a cell surface enzyme with neutral metalloendopeptidase activity, which i...
Klonalität	Monoclonal
Klon-Bezeichnung	[rMME/9377]

UniProt	P08473
Reinheit	Protein A/G affinity
Formulierung	0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide
Antibody Type	Primary Antibody
Application Verdünnung	Immunohistochemistry (FFPE): 1-2ug/ml
Anwendungsbeschreibung	Optimal dilution of the recombinant MME antibody should be determined by the researcher.
