| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A recombinant fragment of human NSE gamma (within amino acids 150-300) was used as the immunogen for the Gamma Enolase antibody.                                                                                                                              |
| Produktbeschreibung      | This monoclonal antibody recognizes a protein of about 50kDa, which is identified as gamma-enolase. Three isoenzymes of enolases are identified, alpha, beta and gamma. Alpha-isoform is expressed in most tissues, whereas beta-form is expressed predomi... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [ENO2/9047]                                                                                                                                                                                                                                                   |
| UniProt                  | <a href="#">P09104</a>                                                                                                                                                                                                                                        |

|                        |                                                                                        |
|------------------------|----------------------------------------------------------------------------------------|
| Reinheit               | Protein A/G affinity                                                                   |
| Formulierung           | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                         |
| Antibody Type          | Primary Antibody                                                                       |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml                                                  |
| Anwendungsbeschreibung | Optimal dilution of the Gamma Enolase antibody should be determined by the researcher. |
