| Alternativnummer         | NSJ-V5457-20UG                                                                                                                                                                                                                                                |
| Hersteller               | NSJ Bioreagents                                                                                                                                                                                                                                               |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A recombinant fragment (within amino acids 600-920) of human AR protein (AR-V7 specific) was used as the immunogen for the recombinant Androgen Receptor V7 antibody.                                                                                         |
| Produktbeschreibung      | AR V7 belongs to the nuclear hormone receptor family. It contains the nuclear receptor DNA binding domain. Steroid hormone receptors are ligand-activated transcription factors that regulate the expression of eukaryotic genes affecting cell proliferat... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [DHTR.V7/9394R]                                                                                                                                                                                                                                               |
| UniProt                  | <a href="#">P10275</a>                                                                                                                                                                                                                                        |

|                        |                                                                                                           |
|------------------------|-----------------------------------------------------------------------------------------------------------|
| Reinheit               | Protein A/G affinity                                                                                      |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                                   |
| Antibody Type          | Primary Antibody                                                                                          |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml                                                                     |
| Anwendungsbeschreibung | Optimal dilution of the recombinant Androgen Receptor V7 antibody should be determined by the researcher. |
