| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A recombinant fragment (within amino acids 1-200) of human TTF-1 protein was used as the immunogen for the NKX2.1 antibody.                                                                                                                                   |
| Produktbeschreibung      | Recognizes a protein of 40kDa, identified as Homeobox protein Nkx-2.1, also called Thyroid transcription factor-1 (TTF-1). NKX2.1 is a member of the NKx2 family of homeodomain transcription factors. It is expressed in epithelial cells of the thyroid ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [NX2.1/9031]                                                                                                                                                                                                                                                  |
| UniProt                  | <a href="#">P43699</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Protein A/G affinity                                                                                                                                                                                                                                          |

|                        |                                                                                 |
|------------------------|---------------------------------------------------------------------------------|
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide         |
| Antibody Type          | Primary Antibody                                                                |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml                                           |
| Anwendungsbeschreibung | Optimal dilution of the NKX2.1 antibody should be determined by the researcher. |
