| Hersteller               | NSJ Bioreagents                                                                                                                                                                                                                                               |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P, WB                                                                                                                                                                                                                                                     |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A portion of amino acids 1-200 from human Mitochondrial transcription factor 1 protein was used as the immunogen for the mtTFA antibody.                                                                                                                      |
| Produktbeschreibung      | mtTFA (mitochondrial transcription factor A), also known as mtTF1, TFAM, TCF6 (for transcription factor 6-like1), TCF6L2 and tsHMG, is a nuclear-encoded gene product that is imported into the mitochondria. mtTFA is required for many aspects of mitoch... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [TFAM/9713]                                                                                                                                                                                                                                                   |
| UniProt                  | <a href="#">Q00059</a>                                                                                                                                                                                                                                        |

|                        |                                                                                |
|------------------------|--------------------------------------------------------------------------------|
| Reinheit               | Protein A/G affinity                                                           |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide        |
| Antibody Type          | Primary Antibody                                                               |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml, Western blot: 2-4ug/ml                  |
| Anwendungsbeschreibung | Optimal dilution of the mtTFA antibody should be determined by the researcher. |
