| Hersteller               | NSJ Bioreagents                                                                                                                                                                                                                                               |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A recombinant full-length human TLE1 protein was used as the immunogen for the recombinant TLE1 antibody.                                                                                                                                                     |
| Produktbeschreibung      | Key players in the Notch pathway are the TLE genes, which are human homologs of the Drosophila groucho gene. Groucho is a transcriptional repressor that plays a key role in neurogenesis, segmentation and sex determination. Transducin-like enhancer pr... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [rTLE1/13032]                                                                                                                                                                                                                                                 |
| UniProt                  | <a href="#">Q04724</a>                                                                                                                                                                                                                                        |

|                        |                                                                                           |
|------------------------|-------------------------------------------------------------------------------------------|
| Reinheit               | Protein G affinity                                                                        |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                   |
| Antibody Type          | Primary Antibody                                                                          |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml                                                     |
| Anwendungsbeschreibung | Optimal dilution of the recombinant TLE1 antibody should be determined by the researcher. |
