| Alternativnummer         | NSJ-V8982SAF-100UG                                                                                                                                                                                                                                            |
| Hersteller               | NSJ Bioreagents                                                                                                                                                                                                                                               |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant human full-length ERG protein was used as the immunogen for the ERG antibody.                                                                                                                                                                     |
| Produktbeschreibung      | The transcription factor erythroblastosis virus E26 transforming sequence related gene (ERG) functions as a regulator of key cellular functions to promote endothelial homeostasis. Expression of ERG has been observed in both benign and malignant vascu... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [ERG/2107]                                                                                                                                                                                                                                                    |
| UniProt                  | <a href="#">P11308</a>                                                                                                                                                                                                                                        |

|                        |                                                                              |
|------------------------|------------------------------------------------------------------------------|
| Reinheit               | Protein A/G affinity                                                         |
| Formulierung           | 1 mg/ml in 1X PBS, BSA free, sodium azide free                               |
| Antibody Type          | Primary Antibody                                                             |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml                                        |
| Anwendungsbeschreibung | Optimal dilution of the ERG antibody should be determined by the researcher. |
