| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FACS, IF                                                                                                                                                                                                                                                      |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant full-length human CTBP2 protein was used as the immunogen for the CTBP2 antibody.                                                                                                                                                                 |
| Produktbeschreibung      | The gene CTBP2 (C-terminal binding protein 2) encodes a member of the CtBP-family. The gene is mapped to human chromosome 21q21.3. It is found to be expressed ubiquitously, with higher expression in the heart, skeletal muscle, and pancreas. The gene ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [PCRP-CTBP2-1A9]                                                                                                                                                                                                                                              |
| UniProt                  | <a href="#">P56545</a>                                                                                                                                                                                                                                        |

|                        |                                                                                |
|------------------------|--------------------------------------------------------------------------------|
| Reinheit               | Protein A/G affinity                                                           |
| Formulierung           | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                 |
| Antibody Type          | Primary Antibody                                                               |
| Application Verdünnung | Flow cytometry: 1-2ug/million cells,Immunofluorescence: 1-2ug/ml               |
| Anwendungsbeschreibung | Optimal dilution of the CTBP2 antibody should be determined by the researcher. |
