| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FACS, WB                                                                                                                                                                                                                                                      |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant full-length human Transcription factor 25 protein was used as the immunogen for the TCF-25 antibody.                                                                                                                                              |
| Produktbeschreibung      | Nulp1 (nuclear localized protein 1), also known as TCF25 (transcription factor 25 (basic helix-loop-helix)), Hulp1 or FKSG26, is a 676 amino acid protein that plays a role in cell death. A member of the TCF25 family, Nulp1 utilizes its C-terminus to ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [PCRP-TCF25-1A11]                                                                                                                                                                                                                                             |
| UniProt                  | <a href="#">Q9BQ70</a>                                                                                                                                                                                                                                        |

|                        |                                                                                 |
|------------------------|---------------------------------------------------------------------------------|
| Reinheit               | Protein A/G affinity                                                            |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide         |
| Antibody Type          | Primary Antibody                                                                |
| Application Verdünnung | Flow cytometry: 1-2ug/million cells,Western blot: 1-2ug/ml                      |
| Anwendungsbeschreibung | Optimal dilution of the TCF-25 antibody should be determined by the researcher. |
