Smooth Muscle Actin Antibody, Clone: [rACTA2/1625], Mouse, Monoclonal NSJ-V9287-100UG

Artikelname	Smooth Muscle Actin Antibody, Clone: [rACTA2/1625], Mouse, Monoclonal
Artikelnummer	NSJ-V9287-100UG
Hersteller Artikelnummer	V9287-100UG
Alternativnummer	NSJ-V9287-100UG
Hersteller	NSJ Bioreagents
Wirt	Mouse
Kategorie	Antikörper
Applikation	IHC-P
Spezies Reaktivität	Human
Immunogen	N-Terminal decapeptide of alpha smooth muscle isoform of actin was used as the immunogen for the Smooth Muscle Actin antibody.
Produktbeschreibung	Actin is a major component of the cytoskeleton and is present in most cell types. It is highly specific to actin from smooth muscles. This MAb does not stain cardiac or skeletal muscle, however, it does stain myofibroblasts and myoepithelial cells. T...
Klonalität	Monoclonal
Klon-Bezeichnung	[rACTA2/1625]
UniProt	P62736
Reinheit	Protein A/G affinity

Formulierung	0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide
Antibody Type	Primary Antibody
Application Verdünnung	Immunohistochemistry (FFPE): 1-2ug/ml
Anwendungsbeschreibung	Optimal dilution of the Smooth Muscle Actin antibody should be determined by the researcher.
