| Hersteller               | NSJ Bioreagents                                                                                                                                                                                                                                                  |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                           |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                       |
| Applikation              | IHC-P, WB                                                                                                                                                                                                                                                        |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                            |
| Immunogen                | A portion of amino acids 150-250 of human Myeloperoxidase protein was used as the immunogen for the Myeloperoxidase antibody.                                                                                                                                    |
| Produktbeschreibung      | The heme protein myeloperoxidase (MPO) is a major component of azurophilic granules of neutrophils and polymorphonuclear leukocytes. Optimal oxygen-dependent microbiocidal activity depends on MPO as the critical enzyme for the generation of hypochlorous... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                       |
| UniProt                  | <a href="#">P05164</a>                                                                                                                                                                                                                                           |
| Reinheit                 | Protein A/G affinity                                                                                                                                                                                                                                             |

|                        |                                                                                          |
|------------------------|------------------------------------------------------------------------------------------|
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                  |
| Antibody Type          | Primary Antibody                                                                         |
| Application Verdünnung | Western blot: 2-4ug/ml,Immunohistochemistry (FFPE): 1-2ug/ml                             |
| Anwendungsbeschreibung | Optimal dilution of the Myeloperoxidase antibody should be determined by the researcher. |
