| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, FACS, IHC-P                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A portion of amino acids 1-100 was used as the immunogen for the recombinant deltaNp63 antibody.                                                                                                                                                              |
| Produktbeschreibung      | p40, the deltaN form of p63, is thought to function as a stem cell factor, responsible for maintaining cells in an uncommitted state with regenerative potential a role that may be recapitulated in tumors derived from these cells. p40 is normally expr... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [P40/4396R]                                                                                                                                                                                                                                                   |
| UniProt                  | <a href="#">Q9H3D4</a>                                                                                                                                                                                                                                        |

|                        |                                                                                                                     |
|------------------------|---------------------------------------------------------------------------------------------------------------------|
| Reinheit               | Protein A affinity                                                                                                  |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                                             |
| Antibody Type          | Primary Antibody                                                                                                    |
| Application Verdünnung | ELISA (order BSA-free format for coating),Flow cytometry: 1-2ug/million cells,Immunohistochemistry (FFPE): 1-2ug/ml |
| Anwendungsbeschreibung | Optimal dilution of the recombinant deltaNp63 antibody should be determined by the researcher.                      |
