Recombinant Aciculin Antibody / Phosphoglucomutase 5 / PGM5, Clone: [PGM5/7005R], Rabbit, Monoclonal NSJ-V9416-20UG

Artikelname	Recombinant Aciculin Antibody / Phosphoglucomutase 5 / PGM5, Clone: [PGM5/7005R], Rabbit, Monoclonal
Artikelnummer	NSJ-V9416-20UG
Hersteller Artikelnummer	V9416-20UG
Alternativnummer	NSJ-V9416-20UG
Hersteller	NSJ Bioreagents
Wirt	Rabbit
Kategorie	Antikörper
Applikation	IHC-P
Spezies Reaktivität	Human
Immunogen	Cytoskeletal fraction of the human myometrium tissue extract was used as the immunogen for the recombinant Aciculin antibody.
Produktbeschreibung	Aciculin, also known as PGM5 (phosphoglucomutase 5) or PGMRP, is a 567 amino acid protein that belongs to the phosphoglucomutase family of phosphotransferases, which play an important role in the interconversion of glucose-1-phosphate and glucose-6-p...
Klonalität	Monoclonal
Klon-Bezeichnung	[PGM5/7005R]
UniProt	Q15124

Reinheit	Protein A/G affinity
Formulierung	0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide
Antibody Type	Primary Antibody
Application Verdünnung	Immunohistochemistry (FFPE): 2-4ug/ml
Anwendungsbeschreibung	Optimal dilution of the recombinant Aciculin antibody should be determined by the researcher.
