| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A portin of amino acids 554-604 from the human protein was used as the immunogen for the RHOBTB2 antibody.                                                                                                                                                    |
| Produktbeschreibung      | The Rho subfamily of Ras-related GTPases controls multiple aspects of cell function, including cytoskeletal rearrangement, nuclear signaling and cell growth. DBC-2 (deleted in breast cancer 2 gene protein), also known as RHOBTB2 (Rho-related BTB doma... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [DBC2/3361]                                                                                                                                                                                                                                                   |
| UniProt                  | <a href="#">Q9BYZ6</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Protein A/G affinity                                                                                                                                                                                                                                          |

|                        |                                                                                  |
|------------------------|----------------------------------------------------------------------------------|
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide          |
| Antibody Type          | Primary Antibody                                                                 |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml                                            |
| Anwendungsbeschreibung | Optimal dilution of the RHOBTB2 antibody should be determined by the researcher. |
