| Alternativnummer         | NSJ-V9533SAF-100UG                                                                                                                                                                                       |
| Hersteller               | NSJ Bioreagents                                                                                                                                                                                          |
| Wirt                     | Mouse                                                                                                                                                                                                    |
| Kategorie                | Antikörper                                                                                                                                                                                               |
| Applikation              | IHC-P, WB                                                                                                                                                                                                |
| Spezies Reaktivität      | Human                                                                                                                                                                                                    |
| Immunogen                | A portin of amino acids 19-119 from the human protein was used as the immunogen for the Apolipoprotein E antibody.                                                                                       |
| Produktbeschreibung      | APOE is an apolipoprotein, a protein associating with lipid particles, that mainly functions in lipoprotein-mediated lipid transport between organs via the plasma and interstitial fluids. [UniProt]... |
| Klonalität               | Monoclonal                                                                                                                                                                                               |
| Klon-Bezeichnung         | [APOE/3671]                                                                                                                                                                                              |
| UniProt                  | <a href="#">P02649</a>                                                                                                                                                                                   |
| Reinheit                 | Protein A/G affinity                                                                                                                                                                                     |

|                        |                                                                                           |
|------------------------|-------------------------------------------------------------------------------------------|
| Formulierung           | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                            |
| Antibody Type          | Primary Antibody                                                                          |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml,Western blot: 2-4ug/ml                              |
| Anwendungsbeschreibung | Optimal dilution of the Apolipoprotein E antibody should be determined by the researcher. |
