| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ICC, IHC                                                                                                                                                                                                                                                      |
| Spezies Reaktivität      | Human, Mouse, Rabbit, Rat                                                                                                                                                                                                                                     |
| Immunogen                | Fusion protein amino acids 1-61 of rat Kv2.2 (accession number Q63099) produced recombinantly in E. Coli                                                                                                                                                      |
| Konjugation              | FL650                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | Our Anti-Kv2.2 K+ channel mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone K37/89. It is KO validated, detects human, mouse, rabbit, and rat Kv2.2 K+ channel, and is purified by Protein A chromatography. It is... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.5 mg/mL                                                                                                                                                                                                                                                     |

|                        |                                              |
|------------------------|----------------------------------------------|
| Klon-Bezeichnung       | [K37/89]                                     |
| Molekulargewicht       | 125 kDa                                      |
| Isotyp                 | IgG2a                                        |
| UniProt                | <a href="#">Q92953</a>                       |
| Puffer                 | PBS with 0.09% azide                         |
| Target-Kategorie       | Kv2.2 K <sup>+</sup> channel                 |
| Antibody Type          | Primary Antibody                             |
| Anwendungsbeschreibung | Format: Purified by Protein A chromatography |
