| Hersteller               | Antibodies Incorporated                                                                                                                                                                                                                                  |
| Wirt                     | Mouse                                                                                                                                                                                                                                                    |
| Kategorie                | Antikörper                                                                                                                                                                                                                                               |
| Applikation              | ICC, IHC                                                                                                                                                                                                                                                 |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                        |
| Immunogen                | Fusion protein amino acids 375-770 (C-terminus) of rat GIT1(accession number Q9Z272) produced recombinantly in E. Coli                                                                                                                                   |
| Konjugation              | FL650                                                                                                                                                                                                                                                    |
| Produktbeschreibung      | Our Anti-GIT1 mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone N39B/8. It is KO validated, detects human, mouse, and rat GIT1, and is purified by Protein A chromatography. It is great for use in IHC, ICC.... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                               |
| Konzentration            | 0.5 mg/mL                                                                                                                                                                                                                                                |

|                        |                                              |
|------------------------|----------------------------------------------|
| Klon-Bezeichnung       | [N39B/8]                                     |
| Molekulargewicht       | 90 kDa                                       |
| Isotyp                 | IgG1                                         |
| UniProt                | <a href="#">Q9Z272</a>                       |
| Puffer                 | PBS with 0.09% azide                         |
| Target-Kategorie       | GIT1                                         |
| Antibody Type          | Primary Antibody                             |
| Anwendungsbeschreibung | Format: Purified by Protein A chromatography |
