| Hersteller               | Antibodies Incorporated                                                                                                                                                                                                                                       |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, ICC, IHC, IP, WB                                                                                                                                                                                                                                       |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                             |
| Immunogen                | Fusion protein amino acids 20-271 (extracellular N-terminus) of rat NR2B (accession number Q00960) produced recombinantly in E. Coli                                                                                                                          |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Our Anti-GluN2B/NR2B glutamate receptor mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone N59/36. It is KO validated, detects human, mouse, and rat GluN2B/NR2B glutamate receptor, and is purified by Protein A c... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/mL                                                                                                                                                                                                                                                       |

|                        |                                                                                     |
|------------------------|-------------------------------------------------------------------------------------|
| Klon-Bezeichnung       | [N59/36]                                                                            |
| Molekulargewicht       | 166 kDa                                                                             |
| Isotyp                 | IgG2b                                                                               |
| UniProt                | <a href="#">Q00960</a>                                                              |
| Puffer                 | 10 mM Tris, 50 mM Sodium Chloride, 0.065% Sodium Azide pH 7.29                      |
| Target-Kategorie       | GluN2B/NR2B glutamate receptor                                                      |
| Antibody Type          | Primary Antibody                                                                    |
| Application Verdünnung | Dilution Range: WB: 1:1000. Dilution Range: IHC: 1:1000. Dilution Range: ICC: 1:500 |
| Anwendungsbeschreibung | Format: Purified by Protein A chromatography                                        |
