| Hersteller               | Antibodies Incorporated                                                                                                                                                                                                                                       |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, ICC, IHC, IP, WB                                                                                                                                                                                                                                       |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                             |
| Immunogen                | Synthetic peptide amino acids 164-197 (ATTPSQRSQLEAYSTLLANMGSLSQAPGHKVEPP) of mouse ataxin-1 (accession number P54254)                                                                                                                                        |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Our Anti-Ataxin-1, 11NQ mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone N76/8. It is KO validated, detects human, mouse, and rat Ataxin-1, 11NQ, and is purified by Protein A chromatography. It is great for us... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/mL                                                                                                                                                                                                                                                       |

|                        |                                                                |
|------------------------|----------------------------------------------------------------|
| Klon-Bezeichnung       | [N76/8]                                                        |
| Molekulargewicht       | 85 kDa                                                         |
| Isotyp                 | IgG2b                                                          |
| UniProt                | <a href="#">P54254</a>                                         |
| Puffer                 | 10 mM Tris, 50 mM Sodium Chloride, 0.065% Sodium Azide pH 7.45 |
| Target-Kategorie       | Ataxin-1, 11NQ                                                 |
| Antibody Type          | Primary Antibody                                               |
| Anwendungsbeschreibung | Format: Purified by Protein A chromatography                   |
