| Hersteller               | Antibodies Incorporated                                                                                                                                                                                                                                       |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, ICC, IHC, WB                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                             |
| Immunogen                | Fusion protein amino acids 1-322 (N-terminus) of human ZNF746 (accession number Q6NUN9) produced recombinantly in E. Coli                                                                                                                                     |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Our carrier-free Anti-PARIS/ZNF746 mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone N196/16. It detects human, mouse, and rat PARIS/ZNF746, and is purified by Protein A chromatography. It is great for use in I... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/mL                                                                                                                                                                                                                                                       |

|                        |                                              |
|------------------------|----------------------------------------------|
| Klon-Bezeichnung       | [N196/16]                                    |
| Molekulargewicht       | 60-70 kDa                                    |
| Isotyp                 | IgG1                                         |
| UniProt                | <a href="#">Q6NUN9</a>                       |
| Puffer                 | PBS                                          |
| Target-Kategorie       | PARIS/ZNF746                                 |
| Antibody Type          | Primary Antibody                             |
| Anwendungsbeschreibung | Format: Purified by Protein A chromatography |
