| Kategorie                | Antikörper                                                                                                                                                                                                                  |
| Applikation              | ICC, IHC                                                                                                                                                                                                                    |
| Spezies Reaktivität      | Mouse, Rat                                                                                                                                                                                                                  |
| Immunogen                | Fusion protein amino acids 1-249 (full length) of mouse BDNF (accession number P21237) produced recombinantly in E. Coli                                                                                                    |
| Konjugation              | FL650                                                                                                                                                                                                                       |
| Produktbeschreibung      | Our Anti-BDNF mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone N450/53. It detects mouse and rat BDNF, and is purified by Protein A chromatography. It is great for use in IHC.... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                  |
| Konzentration            | 0.5 mg/mL                                                                                                                                                                                                                   |

|                        |                                              |
|------------------------|----------------------------------------------|
| Klon-Bezeichnung       | [N450/53]                                    |
| Molekulargewicht       | 25-40 kDa                                    |
| Isotyp                 | IgG2b                                        |
| UniProt                | <a href="#">P21237</a>                       |
| Puffer                 | PBS with 0.09% azide                         |
| Target-Kategorie       | BDNF                                         |
| Antibody Type          | Primary Antibody                             |
| Anwendungsbeschreibung | Format: Purified by Protein A chromatography |
