| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Inhibits the activity of interleukin-1 by binding to receptor IL1R1 and preventing its association with the coreceptor IL1RAP for signaling. Has no interleukin-1 like activity. Binds functional interleukin-1 receptor IL1R1 with greater affinity than ... |
| Konzentration            | 200 ug/mL (prior to lyoph)                                                                                                                                                                                                                                    |
| Molekulargewicht         | 18kDa                                                                                                                                                                                                                                                         |
| Tag                      | N-terminal His Tag                                                                                                                                                                                                                                            |
