| Hersteller               | Aviva                                                                                                                                                                               |
| Wirt                     | Rabbit                                                                                                                                                                              |
| Kategorie                | Proteine/Peptide                                                                                                                                                                    |
| Applikation              | WB                                                                                                                                                                                  |
| Spezies Reaktivität      | Bovine, Canine, Equine, Guinea pig, Human, Mouse, Rabbit, Rat, Zebrafish                                                                                                            |
| Produktbeschreibung      | Rimklb catalyzes the synthesis of beta-citryl-glutamate and N-acetyl-aspartyl-glutamate. Beta-citryl-glutamate is synthesized more efficiently than N-acetyl-aspartyl-glutamate.... |
| Klonalität               | Polyclonal                                                                                                                                                                          |
| Konzentration            | 0.5 mg/ml                                                                                                                                                                           |
| Molekulargewicht         | 42kDa                                                                                                                                                                               |
| NCBI                     | <a href="#">108653</a>                                                                                                                                                              |
| UniProt                  | <a href="#">Q80WS1</a>                                                                                                                                                              |

|              |                                                                                                   |
|--------------|---------------------------------------------------------------------------------------------------|
| Formulierung | Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose. |
