| Alternativnummer         | ASB-OACD06453-100UL,ASB-OACD06453-1ML                                                                                                                                                                                                                         |
| Hersteller               | Aviva                                                                                                                                                                                                                                                         |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | ICC, IHC, IP, WB                                                                                                                                                                                                                                              |
| Spezies Reaktivität      | Human, Mouse, Porcine                                                                                                                                                                                                                                         |
| Immunogen                | Range: Pro32 - Gln190                                                                                                                                                                                                                                         |
| Produktbeschreibung      | Catalyzes the conversion of PGH2 to PGD2, a prostaglandin involved in smooth muscle contraction/relaxation and a potent inhibitor of platelet aggregation. Involved in a variety of CNS functions, such as sedation, NREM sleep and PGE2-induced allodynia... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.5 mg/ml                                                                                                                                                                                                                                                     |
| Molekulargewicht         | 21 kDa                                                                                                                                                                                                                                                        |
| NCBI                     | <a href="#">5730</a>                                                                                                                                                                                                                                          |

|              |                                                                       |
|--------------|-----------------------------------------------------------------------|
| Formulierung | Liquid. 0.01M PBS, pH7.4, containing 0.05% Proclin-300, 50% glycerol. |
