### MS4A1 Antibody ASB-OAEE00713

|                          |                                                                                           |
|--------------------------|-------------------------------------------------------------------------------------------|
| Artikelname              | MS4A1 Antibody                                                                            |
| Artikelnummer            | ASB-OAEE00713                                                                             |
| Hersteller Artikelnummer | OAEE00713                                                                                 |
| Alternativnummer         | ASB-OAEE00713-100TESTS(T100)                                                              |
| Hersteller               | Aviva                                                                                     |
| Wirt                     | Mouse                                                                                     |
| Kategorie                | Proteine/Peptide                                                                          |
| Applikation              | FC                                                                                        |
| Spezies Reaktivität      | Human                                                                                     |
| Immunogen                | Normal human lymphocytes from lymph node.                                                 |
| Konjugation              | FITC                                                                                      |
| Produktbeschreibung      | This protein may be involved in the regulation of B-cell activation and proliferation.... |
| Klonalität               | Monoclonal                                                                                |
| Konzentration            | 20 ul / test                                                                              |
| Klon-Bezeichnung         | [LT20]                                                                                    |
| Isotyp                   | IgG2a                                                                                     |
| NCBI                     | <a href="#">931</a>                                                                       |

|              |                                                                                                                                                                                     |
|--------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Puffer       | The reagent is provided in phosphate buffered saline (PBS) containing 15 mM sodium azide and 0.2% (w/v) high-grade protease free Bovine Serum Albumin (BSA) as a stabilizing agent. |
| Formulierung | Stabilizing phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                             |
