| Applikation              | FC                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Feline, Ferret, Human, Primate, Rabbit                                                                                                                                                                                                                        |
| Immunogen                | Purified CD271 protein isolated from human melanoma cell line A875                                                                                                                                                                                            |
| Konjugation              | RPE                                                                                                                                                                                                                                                           |
| Produktbeschreibung      | Plays a role in the regulation of the translocation of GLUT4 to the cell surface in adipocytes and skeletal muscle cells in response to insulin, probably by regulating RAB31 activity, and thereby contributes to the regulation of insulin-dependent glu... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 10 ul / test                                                                                                                                                                                                                                                  |
| Klon-Bezeichnung         | [NGFR5]                                                                                                                                                                                                                                                       |
| Isotyp                   | IgG1                                                                                                                                                                                                                                                          |

|              |                                                                                                                                                                                     |

| NCBI         | <a href="#">4804</a>                                                                                                                                                                |
| Puffer       | The reagent is provided in phosphate buffered saline (PBS) containing 15 mM sodium azide and 0.2% (w/v) high-grade protease free Bovine Serum Albumin (BSA) as a stabilizing agent. |
| Formulierung | Stabilizing phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                             |
