| Produktbeschreibung      | Cadherins are calcium-dependent cell adhesion proteins (PubMed:11976333). They preferentially interact with themselves in a homophilic manner in connecting cells, cadherins may thus contribute to the sorting of heterogeneous cell types. CDH1 is invol... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 10 ul / test                                                                                                                                                                                                                                                  |
| Klon-Bezeichnung         | [67A4]                                                                                                                                                                                                                                                        |
| Isotyp                   | IgG1                                                                                                                                                                                                                                                          |

|              |                                                                                                                                                                                     |
