| Puffer       | The reagent is provided in phosphate buffered saline (PBS) containing 15 mM sodium azide and 0.2% (w/v) high-grade protease free Bovine Serum Albumin (BSA) as a stabilizing agent. |
| Formulierung | Stabilizing phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                             |
