| Artikelname              | CD69 Antibody                                                                                                                                     |
| Artikelnummer            | ASB-OAEE00955                                                                                                                                     |
| Hersteller Artikelnummer | OAEE00955                                                                                                                                         |
| Alternativnummer         | ASB-OAEE00955-100TESTS(T100)                                                                                                                      |
| Hersteller               | Aviva                                                                                                                                             |
| Wirt                     | Mouse                                                                                                                                             |
| Kategorie                | Proteine/Peptide                                                                                                                                  |
| Applikation              | FC                                                                                                                                                |
| Spezies Reaktivität      | Human                                                                                                                                             |
| Immunogen                | anti- $\mu$ -stimulated human B lymphocytes                                                                                                       |
| Konjugation              | RPE                                                                                                                                               |
| Produktbeschreibung      | Involved in lymphocyte proliferation and functions as a signal transmitting receptor in lymphocytes, natural killer (NK) cells, and platelets.... |
| Klonalität               | Monoclonal                                                                                                                                        |
| Konzentration            | 20 ul / test                                                                                                                                      |
| Klon-Bezeichnung         | [FN50]                                                                                                                                            |
| Isotyp                   | IgG1                                                                                                                                              |
| NCBI                     | <a href="#">969</a>                                                                                                                               |

|              |                                                                                                                                                                                     |
|--------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Puffer       | The reagent is provided in phosphate buffered saline (PBS) containing 15 mM sodium azide and 0.2% (w/v) high-grade protease free Bovine Serum Albumin (BSA) as a stabilizing agent. |
| Formulierung | Stabilizing phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                             |
