| Alternativnummer         | ASB-OAGA05010-100UL                                                                                                                                                                                                                                           |
| Hersteller               | Aviva                                                                                                                                                                                                                                                         |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | ICC, IF, IHC-P, WB                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant protein encompassing a sequence within the center region of human Vinexin. The exact sequence is proprietary.                                                                                                                                     |
| Produktbeschreibung      | This gene encodes an SH3 domain-containing adaptor protein. The presence of SH3 domains play a role in this proteins ability to bind other cytoplasmic molecules and contribute to cystoskeletal organization, cell adhesion and migration, signaling, and... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                       |
| NCBI                     | <a href="#">10174</a>                                                                                                                                                                                                                                         |
| Puffer                   | 0.1M Tris, 0.1M Glycine, 20% Glycerol (pH7). 0.01% Thimerosal was added as a preservative.                                                                                                                                                                    |
