| Hersteller               | Aviva                                                                                                                                                                                                                                  |
| Wirt                     | Mouse                                                                                                                                                                                                                                  |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                       |
| Applikation              | WB                                                                                                                                                                                                                                     |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                  |
| Immunogen                | The immunogen for anti-YWHAE antibody: anti-human YWHAE mAb is derived from hybridization of mouse FO myeloma cells with spleen cells from BALB/c mice immunized with recombinant human YWHAE amino acids 1-255 purified from E. coli. |
| Produktbeschreibung      | Mouse Anti Human Tyr-3/Trp- 5 Monooxygenase Activation Protein Epsilon...                                                                                                                                                              |
| Klonalität               | Monoclonal                                                                                                                                                                                                                             |
| Klon-Bezeichnung         | [P5A5AT.]                                                                                                                                                                                                                              |
| NCBI                     | <a href="#">7531</a>                                                                                                                                                                                                                   |
| Reinheit                 | YWHAE antibody was purified from mouse ascitic fluids by protein-G affinity chromatography.                                                                                                                                            |

|              |                                                     |
|--------------|-----------------------------------------------------|
| Formulierung | 1mg/ml containing PBS, pH-7.4, & 0.1% Sodium Azide. |
