| Hersteller               | Aviva                                                                                                                                                                                                                              |
| Wirt                     | Mouse                                                                                                                                                                                                                              |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                   |
| Applikation              | IF, WB                                                                                                                                                                                                                             |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                              |
| Immunogen                | The immunogen for anti-OAT antibody: anti-human OAT mAb, is derived from hybridization of mouse F0 myeloma cells with spleen cells from BALB/c mice immunized with recombinant human OAT amino acids 33-439 purified from E. coli. |
| Produktbeschreibung      | Mouse Anti Human Ornithine aminotransferase...                                                                                                                                                                                     |
| Klonalität               | Monoclonal                                                                                                                                                                                                                         |
| NCBI                     | <a href="#">4942</a>                                                                                                                                                                                                               |
| Reinheit                 | OAT antibody was purified from mouse ascitic fluids by protein-G affinity chromatography.                                                                                                                                          |
| Formulierung             | 1mg/ml containing PBS, pH-7.4, & 0.1% Sodium Azide.                                                                                                                                                                                |
