| Artikelname              | DFFB Antibody                                                                                                                                             |
| Artikelnummer            | ASB-OAPB00076                                                                                                                                             |
| Hersteller Artikelnummer | OAPB00076                                                                                                                                                 |
| Alternativnummer         | ASB-OAPB00076-0.1MG                                                                                                                                       |
| Hersteller               | Aviva                                                                                                                                                     |
| Wirt                     | Rabbit                                                                                                                                                    |
| Kategorie                | Proteine/Peptide                                                                                                                                          |
| Applikation              | ELISA, ICC, WB                                                                                                                                            |
| Spezies Reaktivität      | Bovine, Human, Mouse, Rat                                                                                                                                 |
| Immunogen                | DFF40 antibody was raised against a 16 amino acid peptide near the center of human DFF40. The immunogen is located within amino acids 190 - 240 of DFF40. |
| Konjugation              | Unconjugated                                                                                                                                              |
| Produktbeschreibung      | Nuclease that induces DNA fragmentation and chromatin condensation during apoptosis. Degrades naked DNA and induces apoptotic morphology....              |
| Klonalität               | Polyclonal                                                                                                                                                |
| Konzentration            | 1 mg/ml                                                                                                                                                   |
| Molekulargewicht         | Predicted: 37 kDa Observed: 38 kDa                                                                                                                        |

|              |                                                                          |
|--------------|--------------------------------------------------------------------------|
| NCBI         | <a href="#">13368</a>                                                    |
| Formulierung | Liquid. DFF40 Antibody is supplied in PBS containing 0.02% sodium azide. |
