| Artikelname              | DRAM1 Antibody                                                                                                                                                                           |
| Artikelnummer            | ASB-OAPB00489                                                                                                                                                                            |
| Hersteller Artikelnummer | OAPB00489                                                                                                                                                                                |
| Alternativnummer         | ASB-OAPB00489-0.1MG                                                                                                                                                                      |
| Hersteller               | Aviva                                                                                                                                                                                    |
| Wirt                     | Rabbit                                                                                                                                                                                   |
| Kategorie                | Proteine/Peptide                                                                                                                                                                         |
| Applikation              | ELISA, IF, IHC-P, WB                                                                                                                                                                     |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                        |
| Immunogen                | Anti-DRAM antibody (4035) was raised against a peptide corresponding to 16 amino acids near the amino terminus of human DRAM. The immunogen is located within amino acids 30-80 of DRAM. |
| Konjugation              | Unconjugated                                                                                                                                                                             |
| Produktbeschreibung      | Lysosomal modulator of autophagy that plays a central role in p53/TP53-mediated apoptosis. Not involved in p73/TP73-mediated autophagy....                                               |
| Klonalität               | Polyclonal                                                                                                                                                                               |
| Konzentration            | 1 mg/ml                                                                                                                                                                                  |
| Molekulargewicht         | Predicted: 14kD, 26kD Observed: 14 kD, 26kD                                                                                                                                              |

|              |                                                                         |
|--------------|-------------------------------------------------------------------------|
| NCBI         | <a href="#">55332</a>                                                   |
| Formulierung | Liquid. DRAM Antibody is supplied in PBS containing 0.02% sodium azide. |
