### EasyStep Human E2(Estradiol) ELISA Kit EBT-ELK020ES

Artikelname	EasyStep Human E2(Estradiol) ELISA Kit
Artikelnummer	EBT-ELK020ES
Hersteller Artikelnummer	ELK020ES
Alternativnummer	EBT-ELK020ES-96, EBT-ELK020ES-48, EBT-ELK020ES-96X5
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Konzentration	1600 pg/mL
Detektionsbereich	25-1600 pg/mL
Sensitivitaet	25 pg/mL
Proben	Serum

Anwendungsbeschreibung	<p>Assay Type: Competitive Inhibition. Assay length: 1.5h. Research Area: Endocrinology, Reproductive science, Hormone metabolism, .</p> <p>Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Human E2 antigen, and the Human E2 standard plate wells that pre-coated using protein-related techniques are provided separately. Standard/Sample Diluent Buffer or samples are added to the appropriate microtiter plate wells ,then added a HRP-conjugated antibody specific to Human E2 to each microplate well and incubated . After TMB substrate solution is added, the enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human E2 in the samples is then determined by comparing the OD of the samples to the standard curve</p>
