## Product Datasheet

### Rat PAPP(A(Pregnancy Associated Plasma Protein A) ELISA Kit EBT-ELK0304

Artikelname	Rat PAPP(A(Pregnancy Associated Plasma Protein A) ELISA Kit
Artikelnummer	EBT-ELK0304
Hersteller Artikelnummer	ELK0304
Alternativnummer	EBT-ELK0304-96, EBT-ELK0304-48, EBT-ELK0304-96X5
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Rat
Konzentration	10 ng/mL
Detektionsbereich	0.16-10 ng/mL
Sensitivitaet	0.05 ng/mL
Proben	serum, plasma, tissue homogenates and other biological fluids

Anwendungsbeschreibung

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Reproductive science, Genetic science,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat PAPP-A. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat PAPP-A. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat PAPP-A, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of Rat PAPP-A in the samples is then determined by comparing the OD of the samples to the standard curve
