EasyStep Human NGAL(Neutrophil Gelatinase Associated Lipocalin) ELISA Kit EBT-ELK038ES

Artikelname	EasyStep Human NGAL(Neutrophil Gelatinase Associated Lipocalin) ELISA Kit
Artikelnummer	EBT-ELK038ES
Hersteller Artikelnummer	ELK038ES
Alternativnummer	EBT-ELK038ES-96, EBT-ELK038ES-48, EBT-ELK038ES-96X5
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Konzentration	1000 pg/mL
Detektionsbereich	15.63-1000 pg/mL
Sensitivitaet	5.6 pg/mL
UniProt	P80188
Proben	Serum, plasma

Anwendungsbeschreibung	Assay Type: Sandwich. Assay length: 1.5h. Research Area: Infection immunity,Urology,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human NGAL, and the Human NGAL standard plate wells that pre-coated using protein-related techniques are provided separately. Standard/Sample Diluent Buffer or samples are added to the appropriate microtiter plate wells ,then added a HRP-conjugated antibody specific to Human NGAL. After TMB substrate solution is added, only those wells that contain Human NGAL and HRP-conjugated antibody will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human NGAL in the samples is then determined by comparing the OD of the samples to the standard curve
