Product Datasheet

Human FDXR(Ferredoxin reductase) ELISA Kit EBT-ELK0794

Artikelname	Human FDXR(Ferredoxin reductase) ELISA Kit
Artikelnummer	EBT-ELK0794
Hersteller Artikelnummer	ELK0794
Alternativnummer	EBT-ELK0794-96, EBT-ELK0794-48, EBT-ELK0794-96X5
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Konzentration	10 ng/mL
Detektionsbereich	0.16-10 ng/mL
Sensitivitaet	0.062 ng/mL
UniProt	P22570
Proben	tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Anwendungsbeschreibung

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Enzyme & Kinase,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human FDXR. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human FDXR. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human FDXR, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human FDXR in the samples is then determined by comparing the OD of the samples to the standard curve
