## Product Datasheet

### Human IA-2 Ab(Insulinoma associated antigen 2 Autoantibody) ELISA Kit EBT-ELK0858

Artikelname	Human IA-2 Ab(Insulinoma associated antigen 2 Autoantibody) ELISA Kit
Artikelnummer	EBT-ELK0858
Hersteller Artikelnummer	ELK0858
Alternativnummer	EBT-ELK0858-96, EBT-ELK0858-48, EBT-ELK0858-96X5
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Konzentration	4000 U/mL
Detektionsbereich	62.5-4000 U/mL
Sensitivitaet	26.8 U/mL
Proben	tissue homogenates, cell lysates and other biological fluids

Anwendungsbeschreibung

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Signal transduction. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human IA-2 Ab. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human IA-2 Ab. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human IA-2 Ab, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human IA-2 Ab in the samples is then determined by comparing the OD of the samples to the standard curve
