EasyStep Human VE-Cadherin(Vascular Endothelial Cadherin) ELISA Kit EBT-ELK088ES

Artikelname	EasyStep Human VE-Cadherin(Vascular Endothelial Cadherin) ELISA Kit
Artikelnummer	EBT-ELK088ES
Hersteller Artikelnummer	ELK088ES
Alternativnummer	EBT-ELK088ES-96, EBT-ELK088ES-48, EBT-ELK088ES-96X5
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Konzentration	10 µg/mL
Detektionsbereich	0.16-10 µg/mL
Sensitivitaet	32.1 ng/mL
Proben	Serum, plasma

Anwendungsbeschreibung

Assay Type: Sandwich. Assay length: 1.5h. Research Area: CD & Adhesion molecule, Tumor immunity, Infection immunity,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human VE-Cadherin, and the Human VE-Cadherin standard plate wells that pre-coated using protein-related techniques are provided separately. Standard/Sample Diluent Buffer or samples are added to the appropriate microtiter plate wells ,then added a HRP-conjugated antibody specific to Human VE-Cadherin. After TMB substrate solution is added, only those wells that contain Human VE-Cadherin and HRP-conjugated antibody will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human VE-Cadherin in the samples is then determined by comparing the OD of the samples to the standard curve
